SKILLS

Technical Skills: Typescript, JavaScript, Python, Java, SQL, GraphQL, HTML, CSS, Tailwind CSS
Database Systems: PostgreSQL, MySQL, MongoDB, Supabase
Frameworks: Node.js, React, Vue, Next.js, Spring Boot, ORM (Prisma, TypeORM)
Platform/AI Tools: AWS, Docker, Postman, GitHub Actions, Vercel, Jenkins, Claude Code
Testing Tools: React Testing Library, Jest
Soft Skills: Problem solving, Adaptability, Critical thinking, Attention to Detail, Teamwork
Language Skills: English, Korean, Sinhalese

PROJECTS, LEADERSHIP

Founder • LinkMap (AI Native Networking Platform) | San Francisco NOV 2025 – PRESENT

- **Secured 200 users and 10 paying customers** by leading product strategy and developing AI-powered semantic search with vector-embedding personalization.
- Tech Stack: Typescript, React, Vite, Tailwind CSS, NodeJs, Express, Figma, Docker, Supabase, OpenAI API, pgvector, Kiro CLI, Claude Code CLI, Gemini CLI

Front End Lead (Contract) • Daxe AI | San Francisco (Remote) SEPT 2024 – PRESENT

- Led front-end efforts for scalable UI/UX development, resulting in **onboarding two enterprise clients**.
- Collaborated cross-functionally to drive feature development and ensure **seamless product delivery**.
- **Resolved technical bottlenecks in real-time in live customer demos**, pivoting features instantly to map complex user pain points to engineering requirements.
- Managed **Agile workflows and sprints** using Kanban boards to optimize team efficiency.
- Tech Stack: Typescript, React, Storybook, Python, llama3, Docker, AWS, Jenkins, OpenAI API.

PROFESSIONAL EXPERIENCE

Full Stack Engineer (Contract) • RocketFin | London, UK (Remote) DEC 2024 – AUG 2025

- Implemented critical UI/UX and foundational codebase for mobile and web applications.
- Presented product demos, **translating technical concepts into business value** to gather stakeholder feedback.
- Built company's first reusable onboarding documentation system, reclaiming 15+ hours/week of senior engineer bandwidth previously spent on manual guidance.
- Tech Stack: Typescript, React, Storybook, C#, Docker, Gitlab, Tailwind CSS.

Front End Engineer, (Contract) • Tokamak Network | South Korea (Remote) JAN 2023 – SEPT 2023

- Developed high-quality Web3 software, driving a **30% increase in traffic**.
- Implemented new features that **increased user engagement by 40%**.
- Tech Stack: Node.js, TypeScript, Next.js, React, Vue, ethersJs, GraphQL, Web3.

Software Engineer • ONDA (T-Port) Co., Ltd. | South Korea MAY 2020 – JAN 2023

- Optimized SEO and site performance, **reducing rendering time by 50% and network traffic by 40%**.
- Automated property requests, **increasing customer service efficiency by 65%**.
- Integrated internationalization (i18N) which helped **grow international customers by 10%**.
- Tech Stack: Node.js, TypeScript, Nuxt.js, Vue.js, GraphQL, MySQL, AWS, Google Cloud.

Software Engineer • Corners Co., Ltd. | South Korea FEB 2018 – MAY 2020

- Optimized server performance and **increased query performance by 20%** via database indexing.
- Developed RESTful APIs for the IntelEvac project, which **won the CES Innovation Award 2020**.
- Tech Stack: Java, Maven, Spring Boot, LORA, Node.js, Express.js

EDUCATION

Hanseo University, South Korea | Bachelor of Aerospace & Software Engineering
University of Colombo, Sri Lanka | Diploma in Information Technology
